ABOUT US

Leader in Industrial market Since 1986

Kashdra Group, established in the year 1986 is a trusted and reputed manufacturer, supplier, and exporter of Wire Saw Machines, LD 4 Machines, Tie Rods & Blade Holders, Single Arm Cranes and also the highly enhanced CNC/ VMC Work Machines with a strong focus on quality, innovation, and customer satisfaction. With years of experience in the industry, the company has established itself as a reliable and efficient supplier of high quality products to customers in various countries around the world, including India, Egypt, Jordan, Dubai, Germany, Tanzania, Colombia, Kenia, Algeria, Iran, Zambia, Oman, Vietnam, Sri Lanka, Nepal, Bangladesh, Indonesia, Uzbekistan, Brazil, and Italy.

OUR CORE VALUES

QUALITY

We pride ourselves on delivering high-quality machines to our stone industry customers worldwide.

INOVATION

We are committed to staying at the top through continuously seeking new and improved ways.

INTEGRITY

Conducting business with honesty, transparency, and ethical values is what we promise.

EXPERTISE

With years of industry knowledge and experience, providing our clients with best technical knowledge.

EFFICIENCY

Always committed to streamline our processes and operations to ensure finest optimal efficiency.

TEAM WORK

Productively creating a positive environment and delivering excellent solutions to our clients.

CONTINUOUS IMPROVEMENT

Always strived to improve our processes to meet and exceed customer expectations.

ACCOUNTABILITY

Responsibly taking decisions and holding ourselves accountable to our potential customers.

OUR CORE PRODUCTS

TIE RODS

Tie rods are essential components in many types of machinery and structures, including automobiles, construction equipment, and buildings. They are used to connect and reinforce different parts of the machinery or structure and ensure its stability and durability. Our company offers a wide range of tie rods to meet the diverse needs of our customers.

MECHANICAL HOLDERS

In the stone industry, the proper functioning of machinery is crucial for achieving accurate cuts and shapes. Tie rods are critical components that provide stability and structural integrity to the machines used in this industry.

HYDRAULIC HOLDERS

Our Tie Rod for Granite Gangsaw Machine is designed to withstand the demanding conditions of stone cutting, shaping, and polishing machinery, providing stability, strength, and durability.

GRANITE HOLDERS

Stone cutting machines require tie rods that can withstand high tensile forces and provide stability to the machine. Our tie rods are designed to meet the demands of stone cutting machines and ensure accurate and efficient cutting of stones.

CNC/VMC WORK MACHINE

The CNC/VMC Work Machine is a state-of-the-art manufacturing machine manufactured and supplied by our company. It is designed to provide efficient and accurate machining of various materials, including metals, plastics, and composites. The machine is built with advanced technology and high-quality materials, making it reliable and durable. Partnership with Kashdra Group means access to expertise in Computerized Numerical Control machinery services(CNC). With a focus on precision CNC solutions, we cater to various industrial sectors. With dedication to quality, cutting-edge tech, & an expert staff, we are your #1 pick for CNC machinery requirements. we are one of the most trusted provider of CNC Milling Job Work Services in Udaipur. Also well known for Vmc Machining Job Work in Udaipur.

WIRESAW MACHINE

We are a prominent manufacturer and supplier of high-quality Wire Saw Machine. The machine is known for its durability, reliability, and high cutting efficiency. We serve our customers with a wide variety of Wire Saw machines that are available in various specifications and dimensions of 20hp, 40hp, 60hp and 75hp categories. These are indispensable tools used to cut hard materials like stone, concrete and metal into different shapes and sizes. It's Basically a cutting wire for cutting materials such as stone, concrete and metals. They are popularly used in mining, construction and stone cutting industries because of their accuracy, high speed and capacity to cut through the toughest materials.

20 HP Wiresaw Machine

40 HP Wiresaw Machine

60 HP Wiresaw Machine

75 HP Wiresaw Machine

LD4 MACHINE

Ld 4 Machine is a precision drilling machine manufactured and supplied by the Kashdra Group which is designed to meet the demands of various industries that require precise and accurate drilling of small to medium-sized components and features a compact and lightweight design, making it easy to handle and transport. The machine is equipped with a high-quality motor that delivers exceptional performance and efficiency, ensuring that every drilling task is completed with speed and accuracy. The machine also features an adjustable speed control, allowing the user to adjust the drilling speed according to the requirements of the task at hand. The machine also features a high-quality chuck system that enables quick and easy bit changes, saving time and effort.

Grease Type LD-4 Machine

LD 4 drilling machine is a machine that is used to drill holes in various surfaces like concrete, metal, and wood. It is used in various industries like construction, mining, and manufacturing

Oil Type LD-4 Machine

The LD 4 Machine is an advanced and versatile tool designed for precision drilling tasks. With its cutting-edge technology and robust construction, it offers exceptional performance and reliability.

SINGLE ARM CRANE

The Kashdra Group is a well-known manufacturer and supplier of a wide range of industrial equipment, including the Single Arm Crane. The Single Arm Crane manufactured by us features a robust structure that is made from high-quality materials, ensuring durability and reliability. It is equipped with a single arm that can rotate 360 degrees, providing maximum flexibility and ease of operation. The crane is also designed with safety in mind, featuring advanced safety features such as emergency stop buttons, overload protection, and anti-collision sensors. These safety features ensure that the crane operator and the surrounding personnel are protected from accidents and injuries. In addition, it is highly customizable to meet the specific needs of different applications.
